THE ART OF THE BEAM

How to replace the JVM and not get fired

Founded in 1987
Made x87 floating point coprocessors 2/3/486
Lossless data compression chip
Videoconferencing for consumers (goes public 1997)
Gets into VoIP in 1998/9
Waits 12 years for cloud to happen
$300M in revenue

THE CLASSIC BESTSELLER

"Absolutely brilliant. Clayton Christensen provides an insightful analysis of changing technology and its importance to a company's future success."
—Michael R. Bloomberg, founder, Bloomberg Financial Market, and mayor of New York City

HARPER

Apache Vysper

Apache Vysper aims to be a modular, full featured XMPP (Jabber) server.

More details on Vysper in our documentation.

There are already some larger XEPs as modules available, most notably

- Multi User Chat (XEP0045) and
- Publish/Subscribe (XEP0060)
- BOSH (XEP0124, XEP0206)

To start using and/or developing extensions for Vysper, don't miss the User Guide!

Murali Ponnuraj ✕

any tips on how to debug?

no messages for 4 hours

Murali Ponnuraj 2:07 AM, February 24

hmm... please go to the menu View->Toggle Developer Tools
and switch to the console tab and see what
`window.location.href` is.

It should be "http://c8phone.s3-website-us-west-2.amazonaws.com/"
Didn't host in netlify like Yaroslav used to do.

of course you can also try setting the
`location.href` to that URL if it is not that
already.

Sanchit Soni 8:48 AM (an hour ago)

Action item for @Andrei Soroker

Andrei Soroker 8:49 AM (an hour ago)

Using the string from the sever is ok for now

Pooja Gupta 9:10 AM (an hour ago)

So no need to localize summary and the
actual message for now?

Or we are just leaving summary as is.

Andrei Soroker 9:13 AM (an hour ago)

As is

Dmitry, Heather, Pooja and 7 more

Dmitry Apresian 8:03 AM (2 hours ago)

After mulling it over some more with
@Dennis Young we think for mobile it'll be
sufficient to re-check the current typing
state every time the conversation goes into
foreground. It'll be simple to implement and
will be an improvement over the current
behavior.

Kevin Ladewig 7:21 AM, February 27

We know that if we want to purchase a fax
solution, we have to check if the provider
offers TLS/SRTP. So, do you?

Andrei Soroker 7:22 AM, February 27

@Kevin Ladewig
(kevin.Ladewig@8x8.com) this is not the
right room for this question, and
unfortunately I don't know where to re-route
your request
